Your Initial Consultation and Evaluation

Thank you for registering with The Queen's Medical Center Comprehensive Weight Management Program. Congratulations for taking the next steps to improve your health and change your life! In an effort to make your first visit with us as efficient and pleasant as possible, please review this document and the contents of this folder. They include important reminders and a checklist of items we would like you to bring.

If you are enrolling in our **Medically Managed Weight Loss Program**, your initial consultation will include:

- An individual visit with the Bariatrician (1 hour). You may request visits with the Registered Dietitian and a Behavioral Health Specialist at your following clinic visit.

If you are enrolling in our **Surgical Weight Loss Program**, please note that the total time of your visit will take approximately four hours. For this reason we ask that you do not bring young children who will need supervision. Your initial consultation will include:

- Individual visits with the Bariatrician and Psychologist (1 hour each)
- Dietician Education (30 minutes)
- Psychological testing (45 to 60 minutes)

These appointments can be completed on the same day or scheduled on different days, if that is more convenient.

Initial Visit Instructions:

- Wear loose fitting clothes. You will be asked to remove your shoes and socks.
- Arrive 30 minutes before your scheduled appointment time.
- Bring your parking ticket, so that we can validate it for you.
- Inform the staff if you have an implanted cardiac pacemaker or defibrillator.

Please be sure to bring the following items with you:

- ☐ Photo ID
- ☐ Health Insurance Card(s)
- ☐ Completed Health Questionnaire
- ☐ Completed Food Log
- ☐ Signed Important Financial Information and Patient Agreement Forms

Should you have any questions, please call us at 808-691-7546. We look forward to seeing you soon. Thank you for selecting Queen's for your care!

What to Ask Your Health Insurer

Insurance plans vary in the services that they cover; therefore, it is your responsibility to speak with your insurer to determine what services your specific plan covers. **In general, most insurers will cover bariatric surgery if the insured meets specific criteria.**

The most common criteria require:

- BMI > 40 kg/m²
- BMI > 35 kg/m², with at least one of the following:
  - Type 2 Diabetes Mellitus
  - Hypertension, on three antihypertensive medications
  - Obstructive Sleep Apnea

The following information may be useful when speaking with your insurer:

- The code your insurer will need is called a CPT code. The CPT code will depend on which surgical procedure you and your surgeon choose. The CPT codes for bariatric surgery are:
  - **43644 Laparoscopic Roux-en Y Gastric Bypass**
  - **43775 Laparoscopic Sleeve Gastrectomy**
- You may want to ask what portion of the hospital, surgeon and anesthesiologist's bill will be covered. Some plans will cover 90%, others 80%. With some plans, you may have a fixed deductible that you must pay each year.
- Some plans require the patient work with a registered dietitian or physician monthly for 3-6 consecutive months before they will authorize surgery.
- If you are traveling from the neighbor island for visits or for surgery, you may want to inquire about covered benefits that can be coordinated through your Primary Care Physician.

What is Not Covered?

- **Co-payments and Deductibles**
- **Surgical Program Enrollment Fee**
- **Facility Fee (if being seen at Punchbowl)**
- **Vitamin and Mineral Supplements**
- **Cosmetic Surgery to remove excess skin**

THE QUEEN'S MEDICAL CENTER
COMPREHENSIVE WEIGHT MANAGEMENT PROGRAM

1380 Lusitana Street, POB I, 3rd Floor ▪ Honolulu, Hawaii 96813 ▪ (808) 691-7546 ▪ FAX: (808) 691-7802 ▪ www.queens.org

Important Financial Information

1. It is important that you check with your insurance carrier to determine whether or not your insurance plan covers **Bariatric Surgery** or **Weight Management** benefits. If you have an HMO or Quest plan, you must obtain a referral from your primary care physician and get approval from your insurance carrier before your visit. Any charges not covered by your insurance will be your responsibility.

2. Nutrition counseling is an important aspect of our program. If your health plan does not cover nutrition counseling, you will be offered a 30% discount. Please be prepared to pay for the dietitian charges on the day of your visit to receive an additional 10% discount.

3. **The QMC Comprehensive Weight Management Program** is a hospital outpatient department of The Queen's Medical Center- Punchbowl (QMC-PB). Depending on your insurance coverage, you may incur a coinsurance fee for your outpatient visit to our **Punchbowl Clinic** (facility fee) in addition to each provider professional coinsurance fee.

4. Please check with your insurance carrier to determine your co-pay outpatient services and be prepared to make payment on the day of your visit.

For our surgical program:

1. The non-refundable program enrollment fee of $100 must be received prior to your initial clinic visit.

2. Nutrition counseling is a critical component for success with bariatric surgery. Visits with the dietitian will include: a minimum of three visits prior to surgery, a mandatory pre-op class and six visits in the year after surgery.

3. Psychological testing is required in preparation for bariatric surgery. The cost of testing may or may not be covered by your insurance. If your insurance does not cover the psychological testing, you will be billed. It is your responsibility to check with your insurance carrier to determine what services are covered.

4. Please check with your insurance carrier to determine your co-pay for surgery and inpatient services. The Queen's Medical Center will provide you with an estimate of your hospital cost share at the time you are pre-registered for your surgical procedure. You will be expected to pay this cost prior to surgery as part of the pre-registration process.

5. Diagnostic testing is an important part of pre and postsurgical care. Insurance plans may not cover the cost of all diagnostic testing. You may be asked to sign an Advanced Beneficiary Notice of Noncoverage (ABN) prior to your test. If your plan declines coverage, you may receive an invoice for payment due. Please be advised that you will be responsible for any amounts due, but may qualify for a discount by contacting the Queen's or DLS billing department.

6. Bariatric Vitamins are critical to maintaining health after surgery and are not covered by insurance. Please be prepared to purchase your vitamins ahead of surgery and plan for this monthly expense. Estimated cost ranges from $35 to $80 per month depending on where you purchase the supplements.

I certify that I have read and understand this financial information.

THE QUEEN'S MEDICAL CENTER
COMPREHENSIVE WEIGHT MANAGEMENT PROGRAM

1380 Lusitana Street, POB I, 3rd Floor ▪ Honolulu, Hawaii 96813 ▪ (808) 691-7546 ▪ FAX: (808) 691-7802 ▪ www.queens.org

Patient Agreement

Welcome to the Queen's Comprehensive Weight Management Program. To ensure effective patient care and efficiency, we ask that you review the following key points and sign in agreement prior to your initial visit.

Appointments:

- You will receive automated & MyChart reminders to confirm appointments ahead of your visit. Please note that if you do not confirm with us, your appointment may be given away.
- You are required to check-in **before** your scheduled office or virtual appointment time. This is to ensure that your data can be obtained ahead of visits with your provider(s). Please check in 30 minutes before your initial visit with us, and 15 minutes before for any follow-up visits. For virtual visits, please call our office to check in at 808-691-7546.
- **Virtual Visits:** For safety reasons, we cannot have your visit if you are driving. Your visit will be rescheduled.
- If you need to reschedule a visit, please contact us at least **48 hours** prior to your appointment.
- Late rescheduled visits (less than 48 hours of notice) and/or failure to attend scheduled visits are a detriment to the efficiency of our clinic and ability to offer timely appointments. Therefore, if you have more than **one incident for New Patients**, **two incidents for Established Patients**, you may be dismissed from our program.
- At each visit, please be sure to notify us of any changes to your address, phone number, insurance or primary care physician. Please be sure to schedule your next appointment before leaving.
- Parking validation for the POB parking garages will be provided to patients who have scheduled appointments.
- If you are traveling from the neighbor island, please be sure to coordinate any insured benefits through your Primary Care Physician.

Program guidelines:

- If enrolled in our surgical program, please be aware that all patients must meet program requirements which include being approved by our patient selection committee and being cleared for surgery by each discipline (Bariatrician, Registered Dietitian and Behavioral Health).
- Please be aware that your insurance company may have specific requirements that must be met in addition to our program guidelines. This may include a minimum length of time in our program or number of consecutive monthly visits.
- Some equipment at the facility has size and weight limitations, which may not be able to accommodate the size of all patients in the program, so it is possible that some services (e.g., nuclear medicine) may be limited.

I have read, understand and agree to all of the above.
