

SPEAKING OF HEALTH

A FREE VIRTUAL HEALTH AND WELLNESS EVENT

INTERSTITIAL LUNG DISEASE

THURSDAY, JANUARY 16

LIVE WEBINAR 12:00PM–1:00PM

Interstitial lung disease often causes inflammation and progressive scarring of lung tissue. This result can stiffen and thicken the lung tissue, making it difficult to breathe and get enough oxygen into the bloodstream. Join **Nishal Brahmbhatt, MD**, to learn about the importance of identifying symptoms and how to receive care.

Topics to be discussed include:

- Possible causes
- Identifying common symptoms
- Evaluation
- Referral and management

Nishal M. Brahmbhatt, MD
Pulmonologist and Medical Intensivist
The Queen's Medical Center - West O'ahu
